Other project stuff: <https://github.com/NickReu/SoftwareDevProject>

## Team Member Contributions:

Nicholas Auer: Front-end HTML and CSS, as well as work on the login and Node middle layer with Chandler

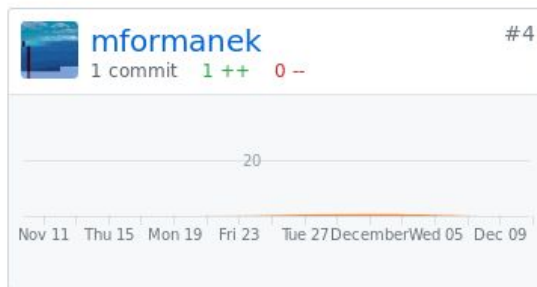

Chandler de Spirlet: Primarily database management with some focus on the login portion and middle layer.

Josh Meyer: Initial meme research and database loading, meme query javascript, and some html/css.

Milan Formanek: Initial meme research, CI Travis testing, node middle layer, login/logout forms.

Owen Loeb: Gathering of neural net text training data (idea tossed), planning on Trello.

Kyle Murphy: Wrote the persistent login and added the ability to log in and log out.

Deployment: <https://notmonday.herokuapp.com/>
